In November a Georgia poll watcher **noticed the suspicious shift** in votes from President Trump to Joe Biden while monitoring the interim election results on the **Georgia secretary of state website**.

**Voter GA** co-founder Garland Favorito swore in an **affidavit** last month with the secretary of state's office that, "I concluded from looking at these results that this was an irregularity, since there was no obvious reason for President Trump's totals to have decreased while former Vice President Biden's totals increased dramatically."

Favorito continued to research the Dominion voting machines fluctuations and "glitches" and found more evidence of votes being switched from President Trump to Joe Biden elsewhere in the state.

This past week elections officials in Ware County Georgia confirmed that they found votes switched from President Trump to Joe Biden when they entered equal numbers of ballots for each candidate through the Dominion Voting machines.

**Captured in Real Time: That Moment in Virginia at 5:12 AM Where they Took 373,000 Votes Off the State Totals**

**Georgia Rep. Jody Hice reported on this vote switching on Friday.**

Yesterday we learned a forensics examination of a Ware County, GA **#DominionVotingSystems** machine found votes were switched from **@realDonaldTrump** to **@JoeBiden**.

This is one machine in one county in one state.

Did this happen elsewhere? We need to know!

## **Dominion System Flips Georgia Trump Votes to Biden State Orders Counties to Certify Dominion Results Anyway**

ATLANTA GA – VoterGA announced today it has **confirmed** the Dominion Democracy Suite 5.5 system used throughout Georgia flipped dozens of votes cast in at least one county for President Donald Trump to former Vice President Joe Biden during the November 3<sup>rd</sup> 2020 election. Dominion vote flipping from Trump to Biden was previously believed to have occurred only in Antrim County, Michigan where the system swapped 6,000 votes from Trump to Biden.

In Georgia, Ware County Elections Director confirmed that the recently completed hand count audit totals showed the total electronic vote count **shorted Donald Trump 37 votes and added those 37 votes to totals for Joe Biden**. The 74 affected votes represents .52% of the 14,192 county votes cast, exactly double Biden's total statewide margin of .26%.

State Election Director Chris Harvey's November 16<sup>th</sup> memo instructed counties to **certify all Dominion results** if they included all ballots cast. After Harvey pressed counties to disregard any potential Dominion counting inaccuracies, Secretary of State (SOS) Brad Raffensperger ordered counties to reset their machines for the U.S. Senate race, which would **destroy** potential evidence of tabulation malware.

Secretary Raffensperger forced Georgia counties to enter their audit results into a centralized ARLO system rather than their own data sources. That broke the audit reporting chain and allowed the SOS office to tell counties what their results are rather than counties reporting their results to the state using generally accepted American election reporting principles. VoterGA polled all 159 counties and found roughly 150 of them had no electronic totals for their own hand count audit.

ARLO was created by VotingWorks, whose founder Ben Adida posted [anti-Trump](#) profanity on social media. The same is true for Dominion's Eric Coomer, the V.P of Systems Strategy and Security, a software patent holder and expert state defense witness in the *Curling V. Raffensperger* case against Georgia's Dominion voting system. Coomer, whose many [historical posts](#) on Social media prove he is an ultimate [Trump hater](#), was also [recorded](#) on an Antifa conference call telling members that: "*Trump won't win. I made f\*\*\*ing sure of it*".

**Favorito was not allowed to testify last week. He believes it is because his testimony would expose the Secretary of State and his twisted sidekick Gabriel Sterling.**

**The Georgia Star News** reported:

In an interview with The Georgia Star News, Favorito explained that the information didn't indicate which machine flipped the votes – just that the mistake occurred.

“We did find that they had flipped votes – we didn't have to obtain the machine to figure that out. The hand count showed that they had flipped votes somewhere in that county,” he said.

Favorito explained that he'd been slated as a top ten witness for Trump's legal team during Thursday's State Senate hearing. Just before he was called to the stand, Favorito told The Star that an administrative assistant for the committee informed him that he was bumped to the bottom of the list “at the chairman's discretion.”

During an interview with The John Fredericks Show, **Favorito claimed that he later discovered why he'd been moved down the witness list.**

**“My testimony would’ve exposed the Secretary of State of Georgia, the Elections Director of Georgia, and the legal counsel of Georgia all for wrongdoing,”** Favorito said. “And, being an independent, I expose corruption on both sides of the political spectrum.”

Vote flipping occurred previously in Antrim County, Michigan, with thousands of votes given to Biden instead of Trump. Multiple outlets and officials have cited the incident as “human error.”
