## Soros-backed Los Angeles District Attorney

George Gascón is under fire for charging a 26-year-old transgender (bio male) as a juvenile after he pleaded guilty to sexually assaulting a 10-year-old girl.

In 2014, 17-year-old James Tubbs grabbed a 10-year-old girl by the throat at a Denny's in Palmdale, California and sexually assaulted her in a bathroom stall.

Since the sexual assault in 2014, James Tubbs 'transitioned' to Hannah Tubbs and is now 26 years old.

Gascón doesn't want to send Tubbs to jail **because he fears he will be victimized and assaulted over his gender identity.**

Tubbs, who also has a history of being arrested for battery and drug possession, will not be charged as an adult and will likely be sentenced to house arrest.

Fox News [reported](#):

Los Angeles District Attorney George Gascon is facing criticisms after a 26-year-old transgender woman pleaded guilty to sexually assaulting a young girl, and faces sentencing of a short stay in a juvenile detention center or probation.

"It's useless to catch criminals like [Hannah Tubbs] if we don't follow through and seek justice for victims such as the 10-year-old girl [she] sexually assaulted. She bears the burden of a lifetime of trauma," L.A. County Supervisor Kathryn Barger, told the Los Angeles Times. "[She] will be offered therapeutic interventions under the auspices of 'restorative justice' ... and possibly granted only probation or parole. Where is the justice for [her] young victim and her family?"

Recall, George Gascón announced radical policy changes shortly after he was elected in late 2020:

- 1) End cash bail by January 2021
- 2) Conviction integrity unit
- 3) No death penalty
- 4) Felony charging no longer seeking enhancements i.e. gang affiliation
- 5) Juveniles will not be tried as adults
- 6) Use-of-force review board to reopen fatal officer-involved shooting cases going back to 2012!

Gascón was previously the DA of San Francisco and absolutely turned that place into a hellhole.

Now Gascón is destroying what's left of Los Angeles, a city already struggling with authoritarian lockdowns, Covid passports and record number of homeless people.
